

European Aviation Safety Agency

Terms of Approval

Design Organisation Approval Certificate EASA.21J.085

1. Scope of approval

This Design Organisation Approval has been granted for:

- designing in accordance with the applicable type-certification basis and environmental protection requirements changes and repairs to aeroplanes related to:
 - electrical systems
 - avionics equipment installation
 - mechanical systems
 - environmental control systems
 - cabin interiors, medical equipment, mission equipment or other interior equipment
 - structure
- designing in accordance with the applicable type-certification basis and environmental protection requirements minor changes to small rotorcraft related to:
 - electric and avionics equipment installation, including related structure
- showing and verifying the compliance with the applicable type-certification basis and environmental protection requirements, and
- demonstrating to the Agency this compliance.

2. Categories of products

Large and small aeroplanes
Small rotorcraft

3. List of products

[Not applicable]

4. Privileges

(a) The holder of this design organisation approval shall be entitled to perform design activities under Part 21 and within its scope of approval.

(b) Subject to 21A.257(b), compliance documents submitted by the holder of this design organisation approval for the purpose of obtaining:

1. a supplemental type-certificate
2. a major repair design approval

shall be accepted by the Agency without further verification.

(c) The holder of this design organisation approval shall be entitled, within its terms of approval and under the relevant procedures of the design assurance system:

1. to classify changes to type design and repairs as "major" or "minor".
2. to approve minor changes to type design and minor repairs.
3. to issue information or instructions containing the following statement: "The technical content of this document is approved under the authority of DOA ref. EASA.21J.085".

4. to approve minor revisions to the aircraft flight manual and supplements, and issue such revisions containing the following statement: "Revision nr. No xx [YY] to AFM (or supplement) ref. yyy [ZZ] is approved under the authority of DOA ref. EASA.21J.085."

5. Limitations

[See in 1, above]

1. No avionics changes with software level;
2. No changes or repairs where compliance to xx.562 (dynamically tested seat installations) would be affected.
3. Only primary structure changes or repairs if related to electric, avionics, cabin interior and equipment installation.
4. Mechanical systems limited to changes related to doors on non-pressurized aircraft below 5670 kg

Date of issue: 15 May 2013
